CELEBRATIONS ON THE FOURTH AND FIFTH OF JULY.

MOISE AND DISTURBANCE IN THE CITY AND VICINITY YESTERDAY-FEATURES OF THE SUNDAY CELE-BRATION-NUMEROUS CRIMES AND ACCIDENTS-NOTES OF THE DEMONSTRATIONS TO-DAY.

In spite of police prohibitions and the sanctity of the Sabbath, there was a great deal of noise made yesterday by persons who were too impatient and too ch inclined to disorder to wait until to-day to cele brate in their fashion the anniversary of the Declaration of Independence. Not a few fireworks were sent up on Saturday night; but it was not until after midnight that the greatest disturbance in the way of the explosion of the greatest distribute in the same and other fire-fire-crackers, the firing of pistols, guns and other fire-arms, and the turbulence of drunken revelers began. At short intervals all through the day, from midnight to midnight again, there was abundance of disquieting and. The arragements for the celebration of to-day in this city have been already given in THE TRIBUNE; but some notes may be added of proposed demonstrations in

this city and its vicinity.

The Scottish people resident in America have been in the habit of celebrating the Fourth of July in a manner peculiar and characteristic. It presents a combination patriotism toward Scotland and loyalty toward Amer-The Caledonian Clubs in many places choose the day for their annual celebration of Scottish games. Among the "gatherings of the clans" held to-day will of the Hudson County Caledonian Club of New-Jersey, held at Schützen Park, Union Hill, N. J.; of Hartford, Conn., Bridgeport, Conn.; Seranton, Penn.; Schonec-tady, N. Y.; and South Adams, Mass. The 79th Highlanders will also have a similar celebration in conjunc-tion with a picule at Elm Park, Ninety-second-st., near Eighth-ave. The regiment will be under the command of Col. Laing, and the games will begin at noon.

A salute of 100 guns will be fired at sunrise this morning at Fort Greene (Washington Park), Brooklyn, and er at sunset at the head of Stagg-st., E. D. The 5th Brigade, National Guard, will form on Clinton ave., with the right on Myrtle-ave., at 8:30 a.m., and take up the following line of march: Through Myrtle-ave., Cumberland-st., Lafayette-ave., Fulton, Montague, and Henry sts. to the City Armory at Crauberry-st. The brigade will be reviewed by the Mayor and Board of Aldermen at ughby-ave, and Cumberland-st. There will be a band concert at Prospect Park from 4 to 6 p. m. In the evening there will be fireworks and music at Washing-ton Park, at Broadway and Myrtle-ave., at Union ave. and Seventh-st., and on the block bounded by Sixth and Seventh-aves., and Tenth and Eleventh-sts., South Brook-There will also be patriotte services in several rches. The two most important celebrations of the day on Long Island, outside of Brooklyn, will be at Sag Harbor and Greenport. At the former place Chief-Justice Daly will deliver an oration.

city fireworks of Jersey City will be displayed in Montgomery-st., near Varick; Communipaw-ave., near Pacific; at Danforth-ave., where the dummy railroad ses; at Palisade-ave., corner of Waverley-st., and at No display will be made at Hamilton Park. District-Attorney Garretson will deliver a Fourth of July cration to the Sabbath-school children of Jersey City, at Union Hill, to-day. Independence Day will be celebrated at the City Heme, in Newark, N. J., with fire-works, a collation, and music. The American Rifle Association of Mount Vernon, Westchester County, expect to have some interesting contests to-day. Extensive ar-Tangements have been made for the shooting matches, which are to take place at their temporary range on the grounds of Capt. Coburn, in the vicinity of St. Paul's Epis copai Church, at East Chester. Four prizes will be com-

The Peckskill Rifle Team will also have a match to-day. Beside the scattered and noisy observance of the Fourth of July yesterday by small boys and turbulent men, there were a few celebrations of the day by organiions in this vicinity. The 14th Regiment, National Guard, Col. James McLeer commanding, joined in appro-priate services in the Sand Street M. E. Church in Brooklyn in the afternoon, by invitation of the Sunday-school. The regiment, in full uniform, occupied seats in the body of the church, the remainder which was filld with the Sands Street M. E. Sunday-school, York Street M. E. Sunday-school, and other persons. The church was handsomely decorated with flowers and bunting and the battle-flags of the regiment were arranged around the pulpit. The exercises, which were interspersed with music and singing, were opened with prayer by the pastor, the Rev. Dr. Taylor. Gen. Stewart L. Woodford then delivered an address, mainly upon the war for the Union and the part taken in it by the 14th Regiment. John J. Magnard fol lowed with an address on the" Declaration of Independence and the War of the Revolution." Superintendent B. S. Utter, on behalf of the Sands Street Sunday-school resented to the regiment a handsome basket of flowers. which was received by Col. McLeer, who made a brief address. The exercises were concluded by a benediction pronounced by the Rev. G. B. Porteous.

The German Liberals of Newark, N. J., assembled at Baier & Hill's Union Park, on Springfield-ave., Newark, yesterday afternon, to the number of about 1,000, for the purpose of "celebrating the Fourth of July on the Fourth of July." It was intended to make a public demonstration in the streets, but it was understood that the Chief of Police would interfere, and that plan was abandoned, and the more quiet one of a private celebration decided upon. An admission fee of 15 cents was charged for the benefit of the German Hospital and the German-English Teachers' Seminary Fund. The programme consisted of the reading of the Declaration of Independence by Dr. Chas. F. Lehlbach, an original ode by Dr. Julius Bruck, and an oration by Charles Hermann Boppe. There was also vocal and instrumental music. Lager beer and liquor were openly sold, notwithstanding the efforts of Mayor Perry to enforce the Sunday law. Baier & Hill will to-day be arraigned for this violation. The demonstration was very orderly, and the Park was closed at the conclusion of the exercises to prevent any riotous conduct. It is stated that the great mass of the German citizens of Newark had no sympathy with yesterday's demonstration. Notwithstanding Chief-of-Police Wam-bold of Newark issued positive orders against the firing of cannon, guns, or pistols yesterday and ordered the arrest of all violators, there was indiscriminate firing

CRIMES AND ACCIDENTS IN NEW-YORK. The number of accidents from the careless use of fire arms or of fire-crackers and fire-works in this city yesterday was large. A great number of small fires occurred by which awnings or other combustible matter were con sumed, causing danger of extensive conflagration. The number of affrays, ascaults and mishaps of various kinds, in addition to those caused by handling fire-arms was ch larger than on an ordinary day, the following inci-

dents show:

James Stewart, a sailer, of No. 280 Front-st., was seriously stabled in the breast early yesterday morning at Dover and Front-sts. The assailant was not recognized and escaped before the police came to the assistance of the injured man, who was taken to the Park Hospital.

John Welsh of No. 132 Mott-st, while standing in front of his house early yesterday morning, received a shot in his left breast. He was assisted to the Mulberry Street Police Station by John Lynch of No. 130 Mott-st, and there Dr. McLeod pronounced his wound fatal. The shooting is believed to have been accidental, and it was not ascertained who fired the pistol. Welsh was taken to Believee Hospital.

THE NATION'S ANNIVERSARY. Trying away his forefinger. Malone was taken to Bellevue Hospital.

John McCarthy of No. 135 Varick-st. found himself without one finger after discharging a small pistol. He was taken to ledlevue Hospital.

Officer Edward M. Ressan of the Sixth Precinct was smoking a cigar in the Police Station on Saturday night when some explosive material which had been put in the cigar burst, injuring his eyes seriously. He will probably lose his slight.

James Dedd, age 40 years, of No. 297 Grand-st., while returning from a pienic when opposite Manhattanville, fell from the upper deck between the barges into the river. In falling his head struck upon the lower deck, and his skull was fractured. The injured man was taken to Bellevne Hespital. His wounds are probably fatal.

Annie Berger, age 6 years, of No. 734 Ninth-ave., fell from the front platform of car No. 20 of the Eighth-ave. line, and her leg was badly crushed. The injured child was taken to the Rosevelt Hospital. The driver of the car (Michael Hall) was locked up in the Twenty-second Precinct Police Station.

Margaret Burke of No. 280 Mulberry-st. attempted to commit suicide last night by hanging herself to the grating in a cell in the Mulberry Street Police Station. She had been graested and locked up for being intoxicated. Doorman Brown cut the woman down in season to save her life.

Twenty-third-st, caught fire from fire-crackers, and was
destroyed. A mischievous boy threw a lighted firecracker among a quantity of fireworks displayed for sale
at Heuston and Mulberry-sis, and in about two minutes
there was nothing to sell at that stand. Adam Pobst's,
adjoining, at No. 511 Fifth-st., caught fire from firecrackers and was destroyed. The roof of the two-story
frame building No. 32 Baxter-st, was set on fire by firecrackers, but the fire was extinguished before it could extend to the rooms. There was a fire last night in the
attic of the brick building at No. 328 Third-ave, occupied
by Abner Lane as an oyster saloon. The fire was caused
by fire-crackers and was extinguished after slight damage had been done. The basement of No. 82 Division-st,
was set on fire by fire-crackers. The damage to the property, which was owned by Henry Wilson, was triffing.
The roof of the two-story frame building of Robert Kilpatrick at No. 208 East Eighty-fifth-st, was set on fire by
fire-crackers, but the fire was put out after triffing damage. The roof of William Kramer's house at No. 180
Grand-st, was set on fire by fire-works, but the damage to
the building was small.

It was therefore the duty of representative men to en-It was therefore the duty of representative men to enlighten the public on the moral or demoralizing effects of such public questions, and they could not escape this duty except at their peril.

The history of the recent trial, Dr. Porteous said, has

the tenious length and gross details of the late trial the moral condition of Broodlyn society. The trial has represented the worst features of mankind, and in its loathsome details has set forth perjury, prejudice, and bitterness which alone are enough to excite contempt and bitter disgust. Never before has the necessity for truthfulness, justice and righteousness shown themselves with such vividness, for this trial has exhibited an awful amount of unmanliness, and has caused many to have doubts as to virtue and recti-tude in anything. LETTERS FROM THE PEOPLE.

VICE-PRESIDENT WILSON'S POLICY. THE DEMAND OF INDEPENDENT VOTERS-NECESSITY OF REFORM BY THE REPUBLICAN PARTY.

To the Editor of The Tribune. SIR: Your article on Vice-President Wilson's utterances was exactly to the point. I have been longing ever since his letter to The Springfield Republican last January, to see just what you said yesterday. I was auxious to learn by what process the Independents were to be "conciliated" by the Republican party. I am one of the former and went out simply because the latter had come intolerable. Well, it went on insolent in its power and defiant in its contempt of decency two years lor till suddenly it lay clawing the earth and wondering what struck it. Immediately thereupon Mr. Wilson opened with prayer and exhortation, and, doubtless being a little mixed by the sheek, ended by prescribing emol-hents, not to where it hurt but to what hurt it. Now how am I to be emolliated I would like to know. A party growing from very bad indeed at the time I left it to about as much worse as possible when, two years later, the whole nation becoming disgusted and indignant res up and cuffed its cars right and left, is after all this, Mr. Wilson thinks, in just the blithest condition, for all the world to let me come back and embrace it and is perworld to let me come back and embrace it and is perfectly willing to allow me to do my level best to help elect its President's temporary demoralization makes him appear jolly. But has the party improved itself at all ! That's not the question—of course it basn't. But is it expable of improvement! Who are its leaders still ! Are they different in one personal lota from what they were in 1872, moved by the same hand-organ, and with senses and passions stimulated into increased activity by longer indulgence in evil practices and designs! And yet our excellent Vice-President writes as though it was the easiest thing imaginable that 4, and such as I, could be concillated by them to return to what we threw off three years ago, and help to reconfirm them in their old quaking organization, because only, so far as I can see, it is called the Republican party. It is things we want, not names, and that has lost its virtue. The promises of purity, honesty, and to be good generally, which the Vice-President is doubtless right in beheving the party would in its calcainty be only too eager to make, in convention and out, would only be laughed at as of doubtful capability of fulfillment, or as one of the pretenses of those who make long prayers. For my own very unpretending part, I should be sorry actively leaves the mation at large until it is superseded by a better, if possible; indeed, no change can be but for the better.

THE INDEPENDENT VOTER. HOW HE IS REGARDED IN CENTRAL NEW-YORK.

To the Editor of The Tribune.

Str: I notice by a brief item in your issue of this morning that you conclude the Independent Voter is not warmly loved by the Republicans of Elmira, and you seem to think, also, that said Independent Voter has been treading upon the favorite grass-plat of some one in the office of The Advertiser of that city, &c. As a resident of the Congressional District, and a daily render of The Advertiser, permit me to suggest that the Republic cans of no portion of our State have come so generally to respect the Independent Voter as have those of the region thich The Advectiser finds its principal circulation. The Countles of Chaatauqua, Cattaraugus, Allegany, Steaben, Wyoming, Livingston, and Cheming, all of them, if I except the latter, are naturally, and have been for years, overwhelmingly Republican. Nominations have been regarded as equivalent to elections, and abuses so monstrous have grown up in the running of cancus machinery that a regular nomination for Sheriff, County Clerk, District Attorney, Member of Congress, Senator, Assembly, &c., has been only obtainable by means of un-blushing corruption and fraud. Your great newspaper, THE TRIBUNE, took deep root in the soil of these countles years ago, and in no rural section of our State is it so generally read. Its wholesome inculcations have been bearing precious fruit of late. All over this region, all along the Southern tier, throughout Western New-York, indeed, boiting, during the last three or four years, has been the rule rather than the exception. The result edly elected in the strongest Republican localities, the organs and organ grinders have been and the organs and organ graders have been brought to grief. Here and there, throughout the section to which I have alluded, is found an editor possessed of a post-offier, who cannot be reconciled to the Independent Voter. Not so, however, with the Republicans generally. The masses of these are becoming rational, and are ready to allow that independence in politics—Liberai Republicanism indeed—is a good thing. Parlisans are bland; the people, enlightened and honest. What we need is, more TRIGUNES, great and small, all over the land.

THE NEW PARADE-GROUND. THE LAW CONDEMNING PRIVATE PROPERTY FOR PUBLIC USE.

To the Editor of The Tribune. SIR: There has been so much said about the new parade-ground on the upper end of the Island, and so much abuse of property owners who have land there, that I send you the section of the law, which not only destroys all the streets and avenues fronting their lots, but condemns them for the public, and has deprived every owner of their use since April 5, 1872, the date of JOHN MCCLAVE. THE ROOK TRADE UNWISELY FAVORED. To the Editor of The Tribune.

SIR: Will you not give these facts publicity in THE TRIBUNE! The Mercantile Library professes, among other things, to provide a reading room for the use of its subscribers, and none who have visited the place in question can doubt that it is well patronized. The natural conception of a reading-room is that it is a place regularly and continuously kept open. A circulating library may be closed for a week or so (upon timely notice), and no one be injured thereby, for those desiring books to read in the interval could draw beforehand. With a reading-room the case is different; the current daily and weekly papers, the magazines and reviews are conversation. To close such a room deprives its sul sembers of an amount of pleasure to which they are en-titled, having paid for it, and in some instances cutails pecuniary loss. This morning the reading room of the Mercantile Library is closed, and it is announced that it will not be reopened till August 1. The cause of this is not to effect any alterations or repairs, nor to give a vacation to the allerations or repairs, nor to give a vacation to the clerks—although acither of these excuses would seem satisfactory—lot in order to enable a certain anction house, which has its headquarters not a thousand miles frem Clinton Hall, to open what it calls a book fair on the premises; in other words, to make use of the reading room, to which we have subscribed, as a general sales-room, where different publishers may exhibit their wares with a view to realizing higher prices at the next trade sale. Literature is goed; book fairs are good at least such is the experience of leipsic), but for the managers of the Mercantile Library to deprive its subscribers of the use of the reading room for a menth in order to odige an individual firm, is not good at all, and I question if it is legal. I am willing to subscribe \$5, if enough other members can be found to do the same, for the purpose of applying for a mandamus, if that prove the proper remedy, or of taking such other action as may be necessary to insure the receipt of a quid pro quo for our annual subscription. Respectfully yours, &c., E.H. L.

INFLATION ARGUMENTS EXAMINED.

To the Editor of The Tribune. SIR: THE TRIBUNE of last Friday contained an article showing that since December, 1867, the Republican party, instead of contracting the currency, had in reality increased the amount in circulation. It meets one of the strongest arguments advanced by inflationists and greenback men. A great many of the men who have acted with the Democratic party since 1872 are alarmed at the course adopted by that party in the convention held in Ohio on June 17, and think the country will not suffer if the party is beaten in Ohio this year and the inflation theory stamped out. As one of that class who believe the credit of our country is of more importance than the success of such a Democratic party, if not in opposition to your views, I would request that you furnish the readers of THE TRIBUNE with an article show-

1. The total amount of paper money in the United States in the latter part of 1860 or the beginning of 1861.

2. The amount of gold, silver, and other currency in circulation or available for circulation at that time, so that we may know how much money at that period was necessary to use in the transaction of business.

3. The amount of currency of all kinds in circulation at the close of the war, or at the time when the greatest amount was in the country.

that would be available for currency were specie payments to be resumed. The strong argument for more paper currency is that the country is suffering for a lack of money, and that absolutely as well as relatively there is less money now with which to transact business than in 1860 and 1861.

THE SPECIAL INDIAN COMMISSION. CORRESPONDENCE CONCERNING THE IN-

VESTIGATION. PROF. MARSH'S REPLY TO COMMISSIONER SMITH'S LEFTER-A DETAILED STATEMENT EMBODYING THE EVIDENCE TO BE PREPARED—INSTRUCTIONS

TO THE SPECIAL COMMISSIONERS. E. P. Smith, Commissioner of Indian Affairs, n July 1 wrote a letter to Prof. Marsh of Yale College, informing him of the appointment of a Special Commission to investigate affairs at the Red Cloud Agency in connection with the statements made by Prof. Marsh in behalf of the Indians with regard to the supplies furnished. Prof. Marsh has written the following reply to Commissioner Smith:

LETTER OF PROF. MAPSII.

YALE COLLEGE, NEW-HAYEN, July 3, 1875.

The Hon. E. P. Shitti, Commissioner of Indian Affairs.

Dear Sir: I have received your letter of the 1st inst., informing me of the appointment of the Hon. A. H. Bullock of Massachusetts, the Hon. F. C. Fletcher of Missouri, and the Hon. George W. Lane of New-York as a committee to investigate affairs at Red Cloud Agency. I have as yet received no communication from the gentlemen named, but I will at once proceed to prepare a detailed statement, embodying the evidence on this subject now in my possession, a copy of which I will with pleasure lay before the committee as soon as they inform me that they flave organized and are ready to act.

Very truly yours,

INSTRUCTIONS TO THE COMMISSION.

INSTRUCTIONS TO THE COMMISSION. Gen. Clinton B. Fisk, President of the Board of Indian commissioners, has been repeatedly disappointed in his efforts to secure special commissioners to investigate the charges made by Prof. Marsh, since the time when he was requested to make the appointments by Secretary Delano. A position on the Commission has been offered to five or six gentlemen, who have declined it. Ex Cov. Bullock of Massachusetts and George W. Lanc of this city, who are mentioned in Commissioner Smith's letter to Prof. Marsh, have decided not to serve. Gen. Fisk has selected another gentleman to serve in place of Mr. Lane, but declines to give the name at present.

The following letter of instructions has been sent to the gentlemen who were named by Gen. Fisk, and whom Commissioner Smith expected to serve:

DEPARTMENT OF THE INTERIOR, OFFICE OF INDIAN AFFAIRS, WASHINGTON, D. C., July 1, 1875.

GENTLEMEN: On the momination of the Chairman of the Board of Indian Commissioners, at the request of the Secretary of the Interior, you have been appointed by him a commission to investigate the affairs of the Red

him a commission to investigate the Cloud Agency.

The occasion for such investigation has mainly orly instead in statements made by Mr. O. C. Marsh, Professor in Sheffield Scientific School, Yale College, concerning matters which he observed while at the agency during November last. As yet those statements have no definite form known to the office other than as they have appeared in the public press, and as made verbally by Mr. Marsh to myself.

November last. As yet these statements have no definite farm known to the office other than as they have appeared in the public press, and as made verbally by Mr. Marsh to myself.

In the latter part of March last, Prof. Marsh brought to me certain samples of tobacco and flour and sugar, which he said he did in accordance with a promise made to Red Cloud in consideration of a promise by Red Cloud to procure an entrance for him into the Black Hills country for scientific purposes. He stated that in a private interview with Red Cloud, that Indian chief complained very bitterly of his agent in many respects, and earnestly desired a change, and that he had given him these as samples of the supplies which he was receiving from Government. He also stated that the beef cattle issued to the Indians were small in size, and otherwise of inferior character; and that there was much confusion in agency matters, especially in the issuing of a large amount of goods in a single day. Prof. Marsh expressed his betief that there might have been an exchange of articles purchased for the Indians for others of inferior quality while on route between Cheyenne and the agency. He also stated that his views as to agency affairs were confirmed by conversations with other persons around the agency.

Prof. Marsh stated that he had not taken any measures to satisfy himself that the samples given to nin by Red Cloud were fair samples of the supplies which were then being issued, and could not say from his own observation that they were fair samples; but that on one occasion, when a suck of flour had tallen from an Indian woman's arms and broken open, he saw the color of the flour as it

did not leave with me, and it is presumed that he has them still in his possession.

His other stat ments in regard to agency affairs are of a still more indefinite character.

In an interview subsequently held with the honorable Secretary of the interior, Prof. Marsh was invited by him to reduce his statements of frands or irregularities in the indian service to writing in such form as would best abin their investigation. To this request Prof. Marsh has not yet responded, nor has be declined it. I have this day notified him, of your appointment and again requested him to furnish such statements or suggestions as may aid in finding the facts as to the administration of Red Cloud Agency.

in finding the facts as to the gammistrations. Agency.

It, however, Prof. Marsh should still decline to furnish such assistance, it is the desire of the honorable. Secretary that you proceed in the investigation, and avail yourselves of all the means that can be found after arriving upon the ground, or before, to learn the state of antiers; and that you will, without fear or favor, investigate all neatters pertaining to that agency so thoroughly as to satisfy yourselves beyond a doubt, as to facts upon which you will make a clear report relative to its past and present condition and management, with such recommendations as will enable the Department to take proper action in the premises.

recommendations as will chable the Department to tagproper neitlom in the premises.

You will undoubtedly meet with persons of strong
partisan feetings entisted both for and against the administration of the present agent; and as you proceed you
will become fully aware of the missepressentations which
such partisanship naturally produces, and the extreme
difficulty of discovering the truth ainly the conflicting
statements and allegations.

statements and allegations.

Watle guarding against giving undue weight to accusations which originate in malice and suspicion only, you will not hesitate to probe all questions to the bottom, and bring to light any official neglect or fraudulent or unfair transactions of any kind or degree, by whomsoever committed. A copy of Agent Saville's letter for questing such investigations is herewith furnished for your mornation; also a full report of the councils held with Red Cloud and a delegation of the chies and head men or Red Cloud Agency at the Department of the Interior, May 28 and June 5.

At Cheyenne you will find C. H. Bostwick, the store-keeper of the Government warehouse, also Mr. Long, the inspector of the four and the supplies which have been shipped from Cheyenne to hed Cloud Agency during the year. You are also regarsted while in the Indian country to make such observations pertaining to Indian affairs generally at Red Cloud Agency as will be of assistance to the administration of the Indian Bureau.

Of this Commission the Hon. A. H. Bullock of Worcester, Mass., is the Camirnan, from whom you will receive notice of the time of proceeding to Cheyenne. Your compensation while actually engaged in this service will be at the rate of 88 per day in aniation to your necessary and actual traveling expenses. night of the various morning papers as follows:

It will be seen that the American News Company bought considerably more Tunatives than it did Worlds and Times put together, and that the New-York News Company also bought together, and that the New York News Company axis boughts more Thrickes than it did Worlds and Times put together. This is about a fair average comparison of the relative purchases for some menths past. There has been no time this year in which the daily circulation of The Trablens was not equal to the combined daily circulations of The World and Times, in which its semi-weekly circulation was not quadruple the combined semi-weekly circulations of The World.

ruple the combined semi-weekly circulations of The World and Times, and in which its weekly circulation was not out of sight ahead of the combined weekly circulations of The World and Times. On the 10th of April two of the best known advertising agents in the country prepared the following card:

We the undersigned have examined the books of This Fill INE, the Foreman of its Frees Econs, the daily reports, etc., and are entirely satisfied, and earlier that the entire circulation of The Daily Tribus, making to accorded daily circulation of The Daily Tribus, was the country of April, up to and including this day, was 4.57, 820 complete copies, making the according to circulation for the month of April, thus far, 50,868 complete copies.

New Fork, April 10, 1875.

The figures above given remained singularly stable throughout the past month. The average daily circulation of The TRIBUSE for the whole month was 50,168.
